

Amanda Finch Memorial Bursary

After Amanda's death, the grief felt by her co-workers was channelled into the establishment of the Amanda Finch Memorial Bursary Fund. Amanda's love for her job and compassion for her patients always managed to shine through. The bursary will be awarded each year to a second year Paramedic student in the program at Conestoga College and will fund tuition and other expenses.

In order to qualify for the Bursary, a student will need to secure the nomination of a peer or preceptor and go through an interview process. The successful candidate will have many of the special qualities exemplified by Amanda: intelligence, enthusiasm and compassion.

Amanda would have been very humbled and proud of her co-workers. They have had a number of fundraisers and their love for her continues as they honour her memory.
